

		London Southend Airport Environmental Policy Statement			Risk Rating	High– Reviewed Annually	
Reference:	SAD-S-HSQ-002	Issue:	I	Owner:	Chief Executive Officer	Department:	Safety & Compliance
Issue Date:		18/01/2021	Compliance Date:		18/01/2021	Planned Review Date:	18/01/2022

London Southend Airport (LSA) recognises its responsibility to manage environmental impacts of the activities, products and services in all areas of business and is committed to:

- Meeting all relevant and applicable legislative requirements and standards.
- Identifying potential environmental impacts associated with all planned, new or modified activities.
- Set environmental objectives and targets, and manage these via performance measurement programmes and procedures to minimise any impacts arising from LSACL operating conditions.
- Comply with Operating Procedures and Operating Instructions.
- Ensure environmental responsibilities are properly communicated and provide ongoing competence training and awareness to staff and other persons performing tasks for the organisation that have the potential to cause environmental impact.
- Verify that suppliers, contractors and partners meet our stated policy requirements and adopt a conscientious approach to environmental issues.
- Co-operate, respond to and record the views of interested parties including stakeholders, customers and the general public.
- To seek continual environmental, greenhouse gas emissions reduction and energy performance improvement, prevention of pollution, taking appropriate opportunities to minimise waste and to re-use and recycle materials.

This policy shall be displayed internally within LSA, communicated to staff and made available to the general public and any other interested parties upon request or via the Airports website.

This policy will be formally reviewed at least annually.

Glyn Jones
Chief Executive Officer
